AMERICAN SOCIETY OF HEATING, REFRIGERATING AND AIR-CONDITIONING ENGINEERS

Successor to both REFRIGERATING ENGINEERING including Air Conditioning, and the ASHRAE Journal, the ASHRAE JOURNAL becomes the official publication of the consolidated American Society of Heating, Refrigerating and Air-Conditioning Engineers. The consolidated Society (1959) has been formed of the merger of the American Society of Heating and Air Conditioning Engineers (1894) and The American Society of Refrigerating Engineers (1905). There will result new unity and concentrated efforts upon the solution of engineering, research, design, development, installation, application and operation problems of members. Your ASHRAE JOURNAL will be your foremost guide to news of professional engineering, progress and people in these dynamic fields.
